TEXAS

FOREWORD

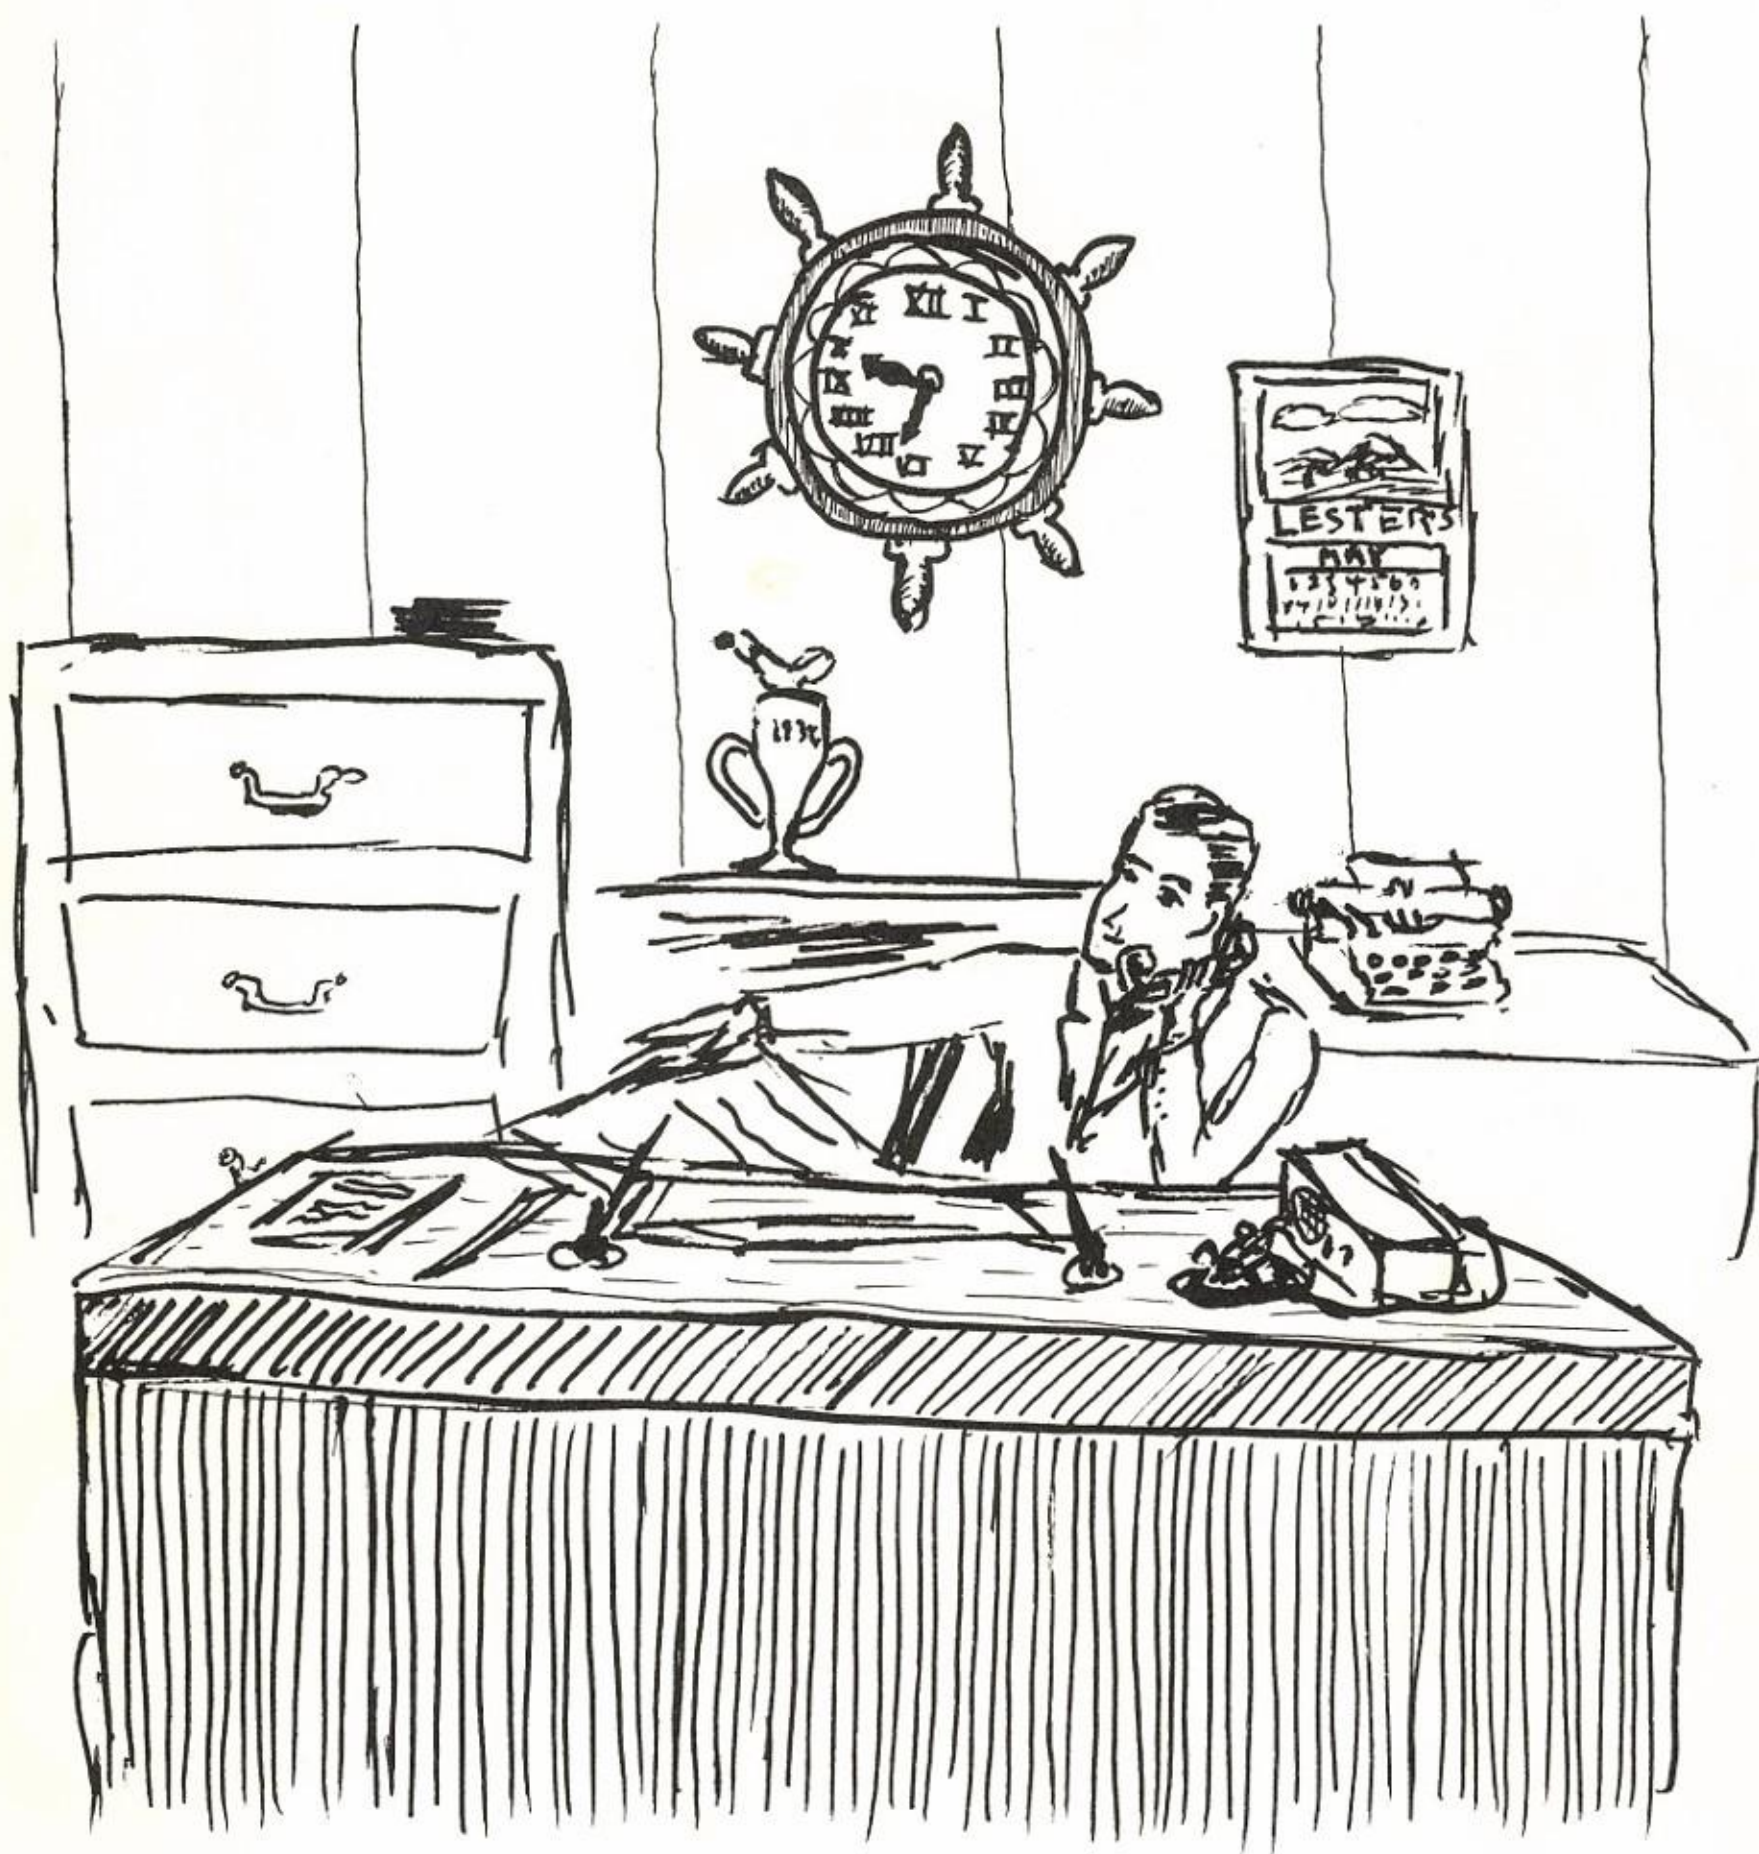

We, the staff of the Panther Prowl, have endeavored to make this book a true account of the student life and activities during 1949-50. It is our sincere wish that in it you can relive those memories vividly alive with laughter, sadness and tears, serious thoughts and studies. We hope that in later years that these glimpses into the past will remain with you as a treasure unsurpassed. Please accept this as your book of today--for remembrance tomorrow.

Dedication

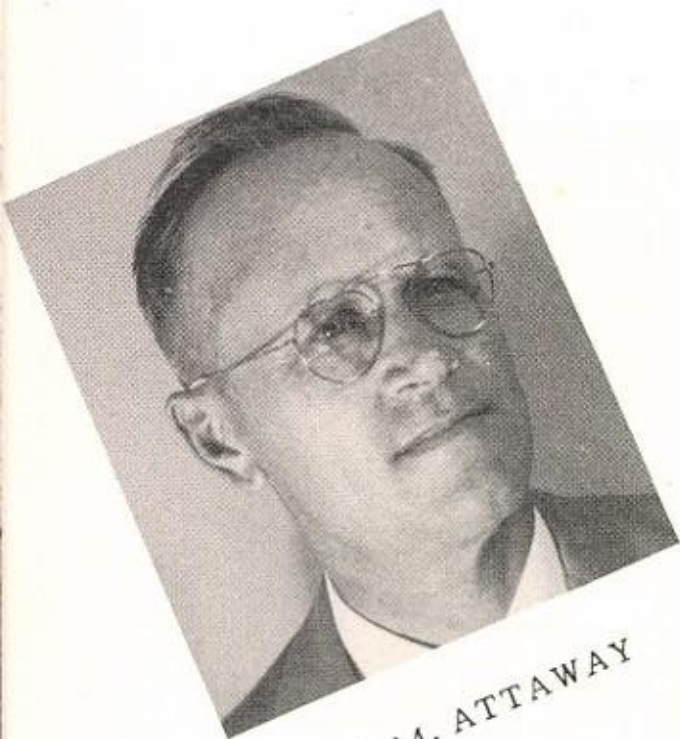

Because of your friendliness and kindness, Miss Percy, because you put the interest of the students first; we dedicate this book to you.

In later years as you turn the pages of the Panther Prowl and live again the years spent in high school remember that America's future sits at a schoolroom desk. It is our young people who must shape the national future and insure the country's continued progress both social and economic.

Citizens-to-be must be capable of more than mere existence under our flag's protection. All Americans have an obligation to contribute to the national growth and the preservation of our ideals. The youth of America need more than adequate preparation to meet this responsibility--they need to appreciate the moral, the intellectual, the aesthetic values in order to enjoy a satisfying personal life.
